AFI 36-2104, 1 February 1997 and AMC Supplement 1, 1 October 1997 are supplemented as follows: (This publication does not apply to Air National Guard or US Air Force Reserve units or personnel.) This supplement provides guidance for implementing McGuire AFB Nuclear Weapons Personnel Reliability Program.

2.1.1. In the absence of the Wing Commander, the Vice-Commander will act as the designated reviewing authority.

2.2.4. The annual review of PRP positions will be documented, signed by the unit commander, routed to the Wing Commander for review and a file copy maintained by the Base PRP monitor.

2.3.5. PRP rosters will be published at least monthly.

A3.2.2. Units will provide the Base PRP monitor with a copy of the memorandum notification letter.

A15.1.5. Medical PRP monitor will ensure all AF Forms 286 are medically screened for PRP certification within 10 calendar days of receipt. Unit monitors will utilize the other 10 calendar days to ensure receipt to the MPF PRP monitor. Any delays will be clearly documented on the reverse side of the AF Form 286 and acknowledged by the certifying official. All AF Forms 286s will be handcarried, the base distribution system will not be used.

A15.3.1. The Wing or Vice Commander will review all PRP certification cases where the certifying official determines certification is appropriate despite a contrary medical recommendation. This review will be conducted prior to certification. In cases of a dual absence, the Support Group Commander will conduct this review.

CRAIG P. RASMUSSEN, Brig Gen, USAF
Commander
